So thrilled that my other baby, the book that I worked on for six years (Seriously!), is finally available for pre-order on Amazon. I'm so proud of this project. The book is filled with anecdotal histories of all the objects that make our house, a home. So I've written about the history of the sofa and the duvet cover and the fork... and more! The project was beautifully illustrated by @alicepattullo Right now, everything is off to the printers!

Preorders are so important for authors and book sales (It's often how retailers decide how much to order). So if it's something you're interested in, don't wait until March (particularly if you have mommy brain, like I do!), preorder and it will be sent to you hot off the presses! 💖 (Link in profile)
